

GASCO®

Founded in 1996, GASCO is a leading manufacturer of Precision Calibration Gas Mixtures. Headquartered in Oldsmar Florida with over 30,000 square feet of space, GASCO is easily accessible to Tampa International Airport, where orders are quickly shipped WORLDWIDE. A second manufacturing facility is strategically located in the greater Houston area. This location offers free delivery within a 100 mile radius, a Will Call pick up option and fast shipping to the west coast and beyond.

GASCO follows strict ISO procedures to create the highest quality grades of pure gases, including; single, complex four-gas and highly reactive gas mixtures. GASCO's products meet and exceed all safety equipment industry specifications.

We offer a variety of cylinder sizes with the highest quality regulators, carrying cases and accessories available. GASCO features an exclusive [ecosmart™](#) cylinder program. This is a smart solution to disposable cylinders. The [ecosmart™](#) program is both innovative and environmentally mindful.

GASCO has over 40 years of gas detection experience and more than 75 years of analytical equipment experience. We provide high quality calibration gas with the knowledge and expertise of when, where and why to use the gas.

When it comes to calibration gas for gas detection technologies, contact the experts at GASCO.

LEADING THE INDUSTRY

ecosmart™ Calibration Gas Cylinders

GASCO introduced an alternative replacement to disposable cylinders. Exclusive **ecosmart™** cylinders are “Made in the USA.” These 100-percent reusable cylinders are designed to address the ongoing concern of how to dispose of empty calibration gas cylinders.

- **ecosmart™** cylinders come in many sizes and offer more gas in a smaller package
- **ecosmart™** cylinders utilize the same C-10 valve; therefore there is no need to change out regulators.

Customers do not have to change how they buy gas. The **ecosmart** program simply solves the issue of what to do with empty cylinders. **Return them to GASCO for free.**

ecosmart™ FREE Return Shipping Instructions:

1. Before returning cylinder, twist M/T Plug into valve. This will release any excess pressure. (Return empty cylinder to GASCO with M/T Plug installed)
2. PEEL OFF label wrap by pulling on the perforated strip. (Empty sticker is shown)
3. Generate your FREE label by using the **ecosmart** returns button at www.gascogas.com
4. Prepare a box with adequate packing material and ship FREE to GASCO!

It makes sense to reduce, reuse, and recycle! These lightweight and portable, cylinders provide the high quality and stability needed in today’s workplace. Exclusive **ecosmart™** cylinders are “Made in the USA.”

GASCO’s **ecosmart™** program is both innovative and environmentally mindful.

GASCO delivers unbeatable service to distributors and their customers WORLDWIDE.

LEADING THE INDUSTRY

SUPERIOR PRODUCT LINES

Specialty Gases

- Complex Multi-Component Hydrocarbon Mixes
- High Purity, Rare and Atmospheric Gases up to 99.999% Purity

Pure Gases

Pure gases available include: argon, carbon dioxide, methane, nitrogen, oxygen, hydrogen and helium. They all feature a 48-month warranty.

Gas Mixtures

Gas mixtures are available in reactive, non-reactive, reactive multi-mixtures and non-reactive multi-mixtures.

Warranties include:

- Non-reactive gas mixtures: 48 months
- Reactive Single gas mixtures: 12 months
- Reactive multi-gas mixtures: 24 months

Advanced Cylinders

GASCO's advanced cylinders transport reactive and non-reactive pure and mixed gases and are available in various sizes of aluminum alloy and steel.

If you're looking for a green solution, ecosmart™ cylinders include a free return program that eliminates the hassle of cylinder disposal. Let GASCO recycle for you.

Sophisticated Regulators

Multi-flow regulators are available in nickel-plated brass and stainless steel with adjustable flow settings. Matching-flow, demand flow and dial-a-flow regulators are also available in nickel plated brass.

Accessories

Carrying Cases -- safely store and transport gas monitors, cylinders and regulators. Canvas and hard plastic cases are available and capable of holding any two or three 116, 105, 103, 66, 58, 44, 34 or 17 liter cylinders.
